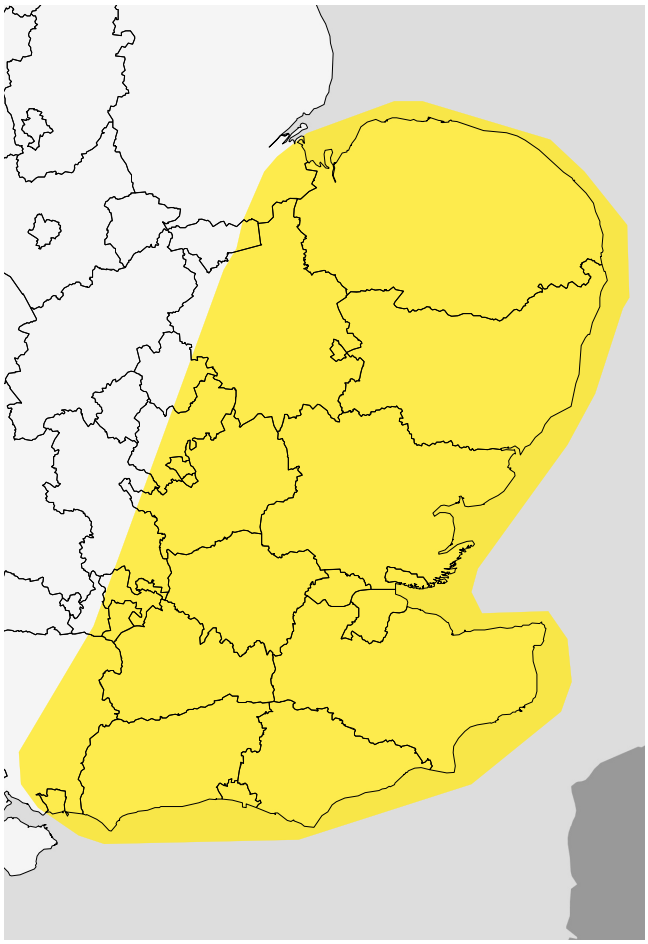
Yellow warning
Thunderstorm

Between
00:00 Thu 25 Aug 2022 and
15:00 Thu 25 Aug 2022



Thunderstorms and heavy rain causing some disruption.

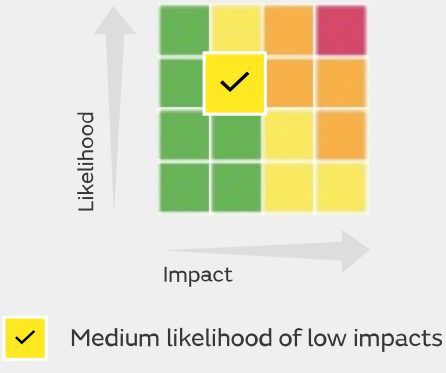
What to expect

- There is a good chance driving conditions will be affected by spray, standing water and/or hail, leading to longer journey times by car and bus
- Delays to train services are possible
- Some short term loss of power and other services is likely
- Possibly some damage to a few buildings and structures from lightning strikes
- Some flooding of a few homes and businesses likely, leading to some damage to buildings or structures

Further details

Outbreaks of heavy, thundery rain are likely to develop and move across east and southeast England from the early hours of Thursday. 10-20 mm of rain is likely over quite a large area but with some embedded thunderstorms some sites are likely to see 30 to 40 mm in 2-3 hours and perhaps 50 mm or more over 6 hours. Lightning will be an additional hazard.

The area of rain is expected to ease from the southwest before clearing into the North Sea during Thursday afternoon.



✓ Medium likelihood of low impacts
